

Key Concept: Science

Skill: Interpreting
Primary sources

1. Based on
Leonardo Da
Vinci's
drawings you
can conclude:

- 
- A. He was primarily interested in art.
B. He was curious about the way things operated.
C. He was a creative renaissance inventor.

Key Concept: Science

Skill: Interpreting Text

According to the Renaissance Historical Snapshot, "Most works were hand written until 1450, when German Johannes Gutenberg invented a printing press with movable letters. This press could make 300 pages per day, greatly increasing the production and availability of books and pamphlets" (2).

1. What could you predict from the excerpt?

- A. The printing press had little impact on communication.
- B. The printing press was practical, but not revolutionary.
- C. The printing press will change education and communication in Europe.
